

MISS MUMMY
HAMPSHIRE-LONDON

ONLINE SESSIONS

- * My online play sessions can be compared with the sessions in person, I deliver care and attention to you in a playful way at the other side of the screen.
- * We will first pencil a date and a time for the session, and I will send you a way of payment for it.
- * You should make sure that you have access to Zoom (or if not possible Skype can be used), and that there is not a noisy environment around you that can distract you, and that you have privacy so you can relax and enjoy the session fully. Your session should be private and confidential.
- * What you don't do in them: no sexual exchange or disclose of any kind, no messy diapers shown to camera.
- * If you need to reschedule you can do this once, if you tell me in advance with a minimum of 24h.
- * Remember that Miss Mummy's online play sessions are purely recreational. If you have a deeper psychological need, you will be better getting the service of a specialist therapist. Miss Mummy's services are not therapy and cannot be a substitute for having had a difficult childhood. Likewise, as much as I love my work, love cannot be purchased, but we can learn to appreciate, care for and love ourselves.
